Feature-3 : Track shipping order.

Descriptions:

- Customer can track the shipping order through the shipping order number.
- User view details of source location, destination location and routes of the shipping through this feature.

Usability:

- Go to -> Track shipping order.
- Select the direct shipping order to review source and destination locations.

The screenshot displays the 'Track Shipping Order' page in ERPNext. The breadcrumb navigation shows 'Freight Management > Track Shipping Order'. The page title is 'Track Shipping Order'. The interface includes a search bar, a 'List View' toggle, and a '+ Add Track Shipping Order' button. On the left, there are filter options for 'Assigned To', 'Created By', 'Tags', and 'Show Tags'. The main table lists shipping orders with columns: Name, Source Location, Destination Location, and Transport Carriage. The table shows three orders: TCO00131, TCO00130, and TCO00129.

Name	Source Location	Destination Location	Transport Carriage
TCO00131	Baroda	Rajkot	Land
TCO00130	gandhinagar	surat	Land
TCO00129	Bombay	Gova	Land

- Track shipping order reports view all details of shipping.
